

## Projects done by the club in the past years

**Transforming Women's Reproductive Health in Nepal**

A vision for improving the health and well being of women in rural Nepal

**In Jashada's words:**

"I felt inferior when I first arrived at the hospital. And dirty. But the Centrus team made me feel comfortable and didn't put me down. You people have done a lot for us, and it was done from your heart. I wouldn't have been able to have the surgery without your help. I hope you will continue to help other women with these same problems."
